

Francois Bolduc

Dr. Francois Bolduc completed his medical school in Sherbrooke, Quebec, Canada. He moved to Montreal to study pediatrics at Hopital Ste Justine (Universite de Montreal) and then pediatric neurology at McGill University's Montreal Children Hospital.

He obtained his PhD from Cold Spring Harbor Laboratory, NY, USA in *Drosophila* genetics. Dr Bolduc is a clinician-scientist in pediatric neuroscience and pursues his work on cognition in human using next-generation sequencing in individuals with intellectual disability and his exploration of the mechanisms linking memory and ID using *Drosophila* at the University of Alberta.
