

Courtney Cook

Courtney is a board-certified genetic counsellor. She received her BSc in Biology and English Literature from the University of British Columbia (UBC) followed by her MSc in Genetic Counselling from UBC. She works as a clinical cancer genetic counsellor at BC Cancer in the Hereditary Cancer Program and as research genetic counsellor at UBC on the GenCOUNSEL project. In her role with GenCOUNSEL she coordinates a study evaluating family-centered care at BC Children's Hospital and has contributed to research exploring genetic counsellor's role in utilization management initiatives. Courtney is involved with the UBC Genetic Counselling MSc program as a lecturer, clinical supervisor and research supervisor.
