

Caitlin Chisholm

Caitlin Chisholm completed her Master's degree in Genetic Counseling at California State University, Northridge. She is currently working as a genetic counsellor with the CHEO Genetics Diagnostic Laboratory, with her primary focus being the Genome-wide Sequencing Ontario pilot. She also provides genetic counselling in the Rapid Access Genomics Clinic with the CHEO Regional Genetics Program. Her previous roles have included providing genetic counselling in a variety of specialties, and working as member of CHEO's Epic implementation team.
