

## Andrea Rideout

Andrea received her Master of Science degree in Genetic Counselling from Sarah Lawrence College in 2002. Following she has held positions in prenatal and psychiatric genetics, research and primary care education in New York and Toronto. She returned to Halifax in 2007 to work with the Atlantic Medical Genetics and Genomics Initiative - a gene discovery project at Dalhousie University and the IWK Health Centre. In 2008 she joined Maritime Medical Genetics Service at the IWK Health Centre as a clinical Genetic Counsellor. Currently her focus is on aortopathies, connective tissue disorders, cardiomyopathies/arrhythmias and 22q11 deletion syndrome.
