

Christèle Du Souich

Christèle Du Souich, MSc, CCGC, CGC, is a Canadian and American Board certified genetic counselor with over 23 years experience in the clinical, pediatric, and prenatal settings. Throughout her career, Christèle has been very active in rare disease research, publishing numerous original research papers and presenting her work at many national and international conferences. She is an active member of the Scientific Program Committee of the Canadian Association of Genetic Counsellors, and teaches and supervises Genetic Counseling students at the University of British Columbia. In January 2022, Christele joined the Blueprint Genetics Team as the Senior Manager for Clinical Branding.
