

Rachel Mador-House

Rachel Mador-House is a board certified Genetic Counselor, researcher and equality activist. Her goal is to increase knowledge about the clinical utility of genetic testing and facilitate access to high quality genetic testing to her community and internationally. She has worked across borders providing consultation services for policy development and utilization management. Clinically she has worked in the perinatal, metabolic, oncology and hematology specialties. Rachel also dedicates herself to volunteer work as the founder of the Arizona Genetics Association (an NSGC State chapter), FORCE, Cystic Fibrosis Canada, Sickle Cell Disease Association, Genetic Counselors with Disabilities founding member, and NSGC as the co-chair a subcommittee of the International SIG. She received her MS in Genetic Counseling at California State University and her MSc in Molecular Genetics at the University of Toronto. Her research was conducted at the Hospital for Sick Children on genomic instability surrounding repetitive DNA elements causing human disease.
